## S1 Reports Session 2018/19

Dear S1 Parent/Carer,

Banchory Academy reports to parents are intended to track and monitor the progress of pupils across the session. S1 reports will be issued twice per session.

The January report provides you with information on effort, behaviour and homework (where appropriate) of your child in his or her classes. An explanation of grades with regards to these are explained in the report.

*Please note that due to staffing issues, we are unfortunately unable to provide reports for Mr Mather's Geography classes.*

The second report, in May 2019, will provide you with information on effort, behaviour and homework (where appropriate) and your child's current level of attainment in his or her classes. These reports will also have a written comment designed to give students specific feedback.

We hope that parents and pupils will find the reporting formats helpful. Our aim is to ensure that you are informed of any issues regarding progress and effort at an early stage so that you can work in partnership with us to improve progress.

Most report formats available to us include a parental feedback sheet, but where this is not the case, we welcome feedback from parents via telephone call or email.

I would also like to remind parents that Guidance staff or the Senior Leadership Team can be contacted at any time during the school session should you have any concerns regarding your child's progress.

Yours faithfully,

Judith Wight  
Rector
