S4 Reports Session 2017/18

Dear S4 Parent/Carer,

Banchory Academy reports to parents are intended to track and monitor the progress of pupils across the session. S4 reports will be issued twice per session.

The October report provides you with information on behaviour, effort and homework of your child in his or her classes and their level of attainment. An explanation of grades and levels is explained in the report.

The second report, in February 2018, will provide you with information on behaviour, effort and homework (where appropriate) and your child's current level of attainment in his or her classes. These reports will also have a written comment designed to give students specific feedback.

In addition to that you will have opportunity to discuss your child's progress at the S4 Parents' Information evening on Wednesday 13th December 2017.

We hope that parents and pupils will find the reporting formats helpful. Our aim is to ensure that you are informed of any issues regarding progress and effort at an early stage so that you can work in partnership with us to improve progress and attainment.

Most report formats available to us include a parental feedback sheet, but where this is not the case, we welcome feedback from parents via telephone call or email.

I would also like to remind parents that Guidance staff or the Senior Leadership Team can be contacted at any time during the school session should you have any concerns regarding your child's progress.

Yours faithfully,

Judith Wight
Rector
