S4 Reports Session 2018/19

Dear S4 Parent/Carer,

Banchory Academy reports to parents are intended to track and monitor the progress of pupils across the session. S4 reports will be issued at three points in the session.

The October report, known as a Tracking Report, provides you with information on effort, behaviour and homework (where appropriate) of your child in his or her classes and their level of attainment. An explanation of grades and levels is explained in the report.

The Second Tracking Report, issued at the end of November, is similar to the first in the information it provides. This report has been added in as extra reporting this session in order to continue to inform parents/carers of pupil progress.

The final report, in February 2019, will provide you with information on effort, behaviour and homework (where appropriate) and your child's current level of attainment in his or her classes. These reports will also have a written comment designed to give students specific feedback.

In addition to that you will have opportunity to discuss your child's progress at the S4 Parents' Information evening on Wednesday 12th December 2018.

We hope that parents and pupils will find the reporting formats helpful. Our aim is to ensure that you are informed of any issues regarding progress and effort at an early stage so that you can work in partnership with us to improve progress and attainment.

The report format used this session includes a parental feedback sheet and please return as appropriate.

I would also like to remind parents that Guidance staff or the Senior Leadership Team can be contacted at any time during the school session should you have any concerns regarding your child's progress.

Yours faithfully,

Judith Wight
Rector
