S4/5/6 Report February 2018

Dear Parent/Carer,

Your child has been issued with their second report today for this session. It provides information on behaviour, effort, homework and current level of attainment in his or her subjects. Where possible, staff have included prelim results and recommendations for the exams in the summer term.

If a child has not performed to a level that indicates a pass in the summer diet, you will also be receiving individual letters from Faculty Heads indicating recommended next steps alongside the report. It is important to note, that if you agree to the recommendation, you are not required to let the school know. However, if you wish to discuss further, you are asked to contact the Faculty Head. We will make changes to the SQA entries on the 6th March.

Finally, on the last page of the report, there is an opportunity for pupils to note the comments that have been made and devise a plan on areas that require improvement should that be the case.

Yours faithfully,

Judith Wight
Rector
